SNOWLESS

SNOWBOARDING. NO SNOW.

Snowboarding with no snow. Bomb six real mountain and city roads on a freeboard: carve, slide, grind and fly at golden hour, in the rain and at midnight. Race the locals, chase medals, nail the daily challenge, then watch your best trick back in slow motion. #NoSnowClub

HOW IT PLAYS

Ride it your way. Time trial, race, score attack, two players on one screen, free ride with unlimited rewinds, and a daily challenge with a new road, weather and target every day. **Race the locals.** First to the line against a local rival. Win and they sulk. Lose and they'll dance about it. **Golden hour, midnight, rain.** Pick the weather and the time of day. In the rain the road gets slippery and fills with puddles, and you'll see your reflection in them. **Feel every metre.** Carve, tuck, toe-side and heel-side slides, ollies, grabs, spins and manuals. Grind rails and ledges, hit kickers and gap jumps. **Bail hard.** Full ragdoll crashes, then get up and go again. **Relive it.** Instant replay with cinematic cameras, slow motion through your best trick, photo mode, and one button to save a clip and share it.
